

Beaver section report

Oak Colony (Thursday Night)

We have had 20 beavers before Easter and after Easter have taken another 3 in. Since the last agm we have not had many meetings due to covid and also the Schools where doing class bubbles so we tried to do zoom meetings which we had some beavers participating and some beavers did the work at home. We then started back face to face after Half term in Feb. Since then we have been doing badge work Communicator, Disability Awareness, First Aid, and doing the start of the Global Issues Badge which we had the Manhood Wildlife & Heritage Group come and talk about the environment and also we had a Saturday Morning planting trees in the birdham field. Some of the Beavers have done Cooks, Personal Challenge, and Collectors badges. We are now going to do more things outside now that the weather is lighter in the evenings like walking and going to the beach, and do lots more badges.

I want to thank Caroline, Claire, Steve, and my young leader Guy and also Amelia who is doing her DOE for all the help in this difficult time.

Jean

Beaver Leader
